Benefits of a treatment

- Non-invasive with no side effects at all
- Overall fresh healthy looking tight skin
- Quick "lunch hour" procedure
- No aesthetic required
- Normal activities can resume immediately
- Pleasant treatment no pain at all

Treatments are generally administered in a series of 4 to 6 sessions that provide excellent long-term results, minimal adverse effects and high satisfaction.

You can return to work the same day and resume all your daily work.

By dividing the full program into several treatments, the procedure provides gradual improvements with no risk – and, it preserves the wonderful "no down time" feature that people appreciate so much.

Remember healthy diet is the key to keep your results.

Length of treatment depends on the area of the body. Treatments can take anything from 40 minutes to 1 hour.
